CONTACTLESS WIRELESS PRECISE

Please Scan The Code
For Our Product Video

SENS is a contactless device

that will give you
medically-accurate temperature
reading within seconds.

SLEEK. SWIFT. SAFE.

WIRELESS

BlueSemi's SENS can detect medically-accurate body temperature from a distance of 15 cm

PRECISION

Temperature accuracy of ± 0.2 degrees C

SUPER-EFFICIENT BATTERY

Charge will last up to 15 days at a time, with battery health notification on the sensor as well as the app

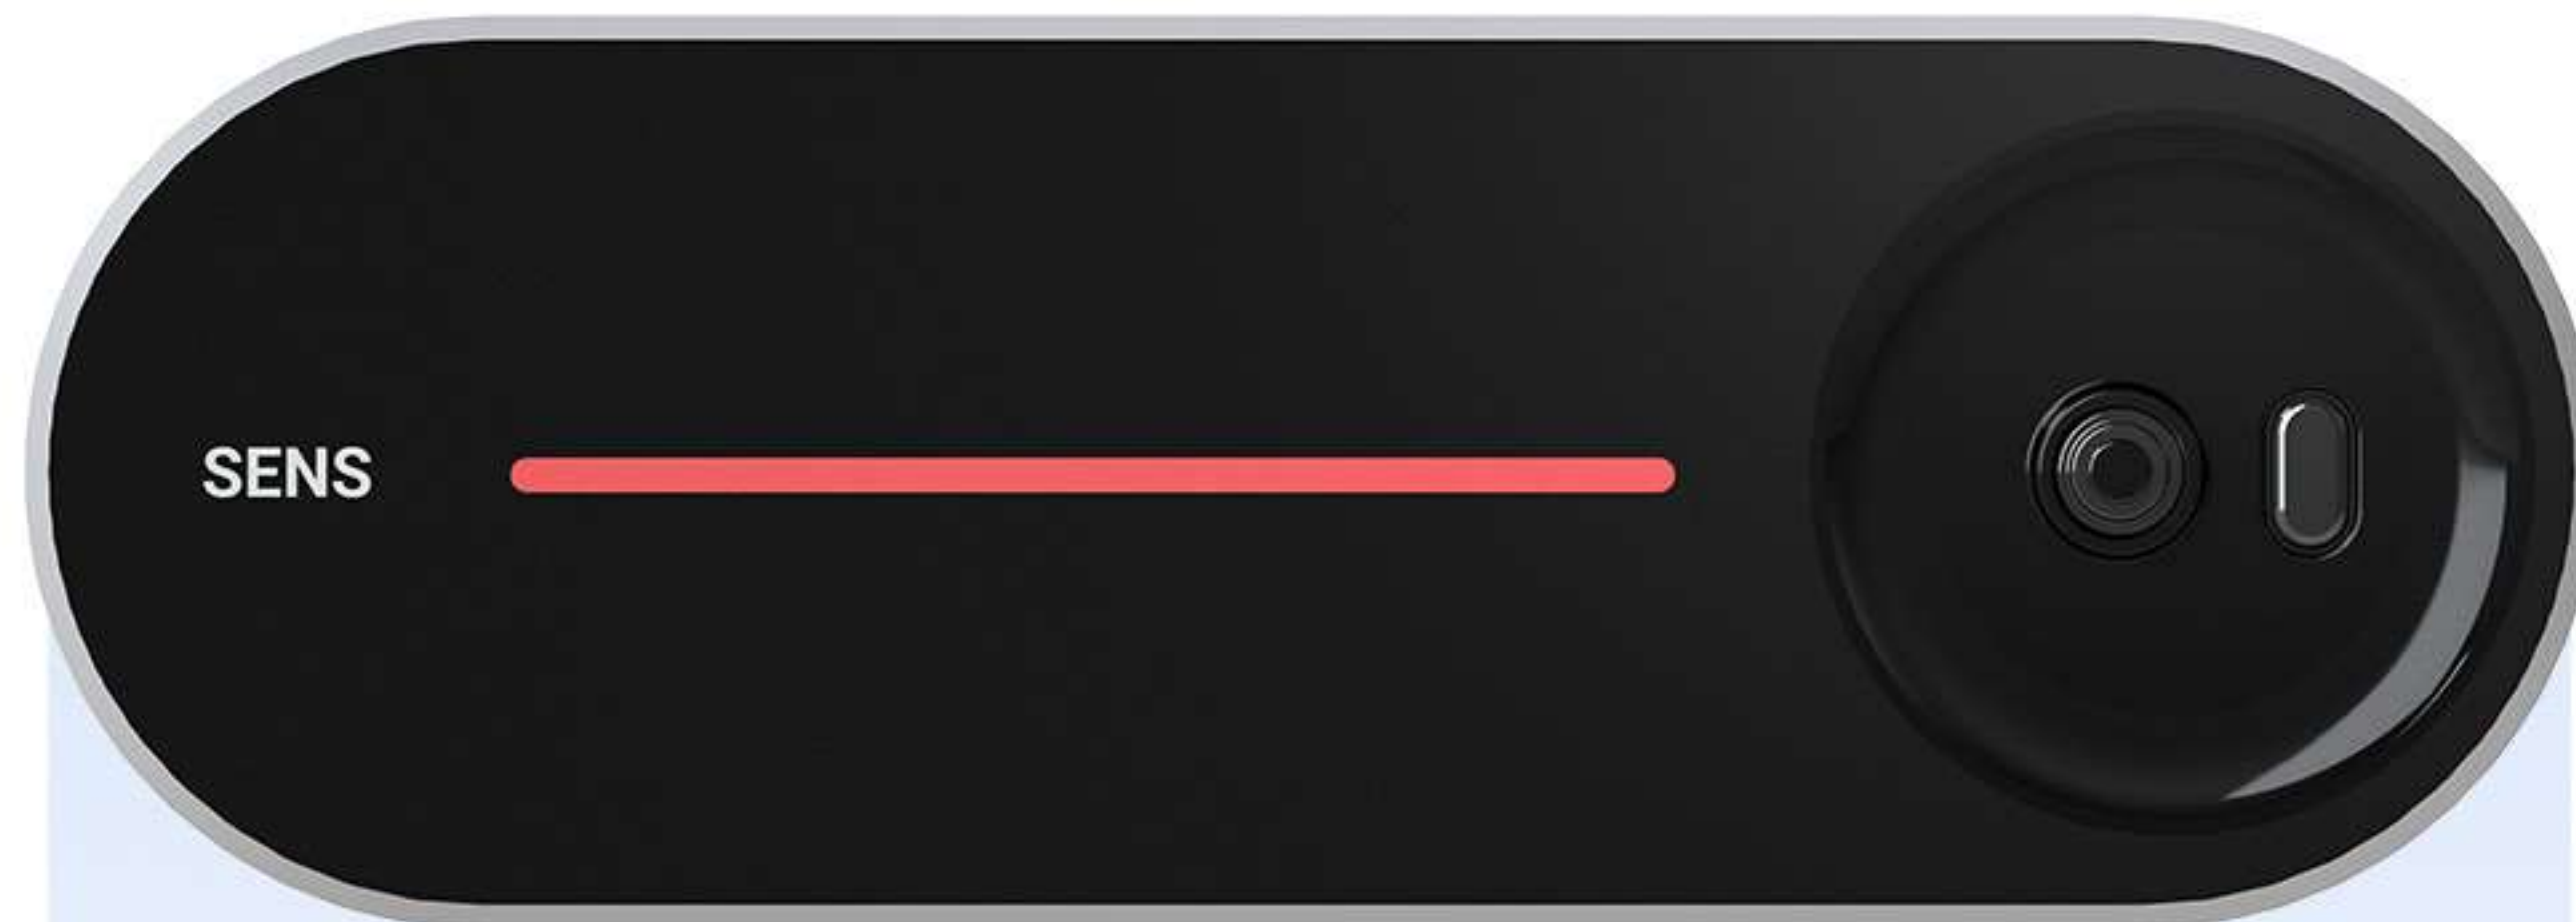

SCALABLE

Unlimited sensors can be connected to a single app, meaning SENS can work for large-scale temperature monitoring

EASY INTEGRATION

SENS is a sleek device that can be installed conveniently anywhere, from checkpoints to entrances
